

## 8 "A" Visiting the British Embassy

On the 20th of September my English teacher, my classmates and I went to the British Embassy, which is located in Protochny side street.

When we came, we got guests cards and we were shown into a big room with a lot other guests.

Then we had some tea and cakes. We talked with other guests about different things. As for me I talked with an Englishman, who was from Wales. It was interesting, but a bit difficult.

Then everybody was invited to the hall where there was a presentation concerning new methods of learning English.

I have learned a lot of new information and I have got very interested in it. Then we had a grammar test. The visit was over and we went home. I am looking forward to going there once more.

**Merab 8 "A"**

Well, on the 20th of September 2012 Merab, Denis, our class teacher Elena Yurievna and I went to the British Embassy. It was so exciting! At the beginning of the seminar, we

talked to the British. One young man looked like Kurt Cobain! We were talking to each other for approx. 10 minutes. At first we understood him badly because he was talking too fast. But after a while we began to understand and share thoughts with him. After that, the seminar began. It was about teaching and learning English.

One day my classmates asked me: "Why did you go there?" Ok, it was very important and useful for me to hear what those people were talking about.

We wrote a grammar test but unfortunately we didn't win the trip to London. But... it doesn't matter.

I can't describe my

impressions; I can't choose the right words. I just had and now I have only positive emotions. This visit to the British Embassy coincided with my birthday. It was one of the best birthdays I had ever had.
